Layover inquiry from Friday when we provided that statement.

Response if fine to me.

Good to go?

Here you go:

The holding statement applies to concentrations of GenX in the Cape Fear River irrespective of the source.

Linda, were you able to get an answer on this one? The reporter's question still stands, and he just checked in.

Hi Linda,

Welcome back!

Can OCSPP address this question?

"With regards to the statement, does it apply to both the GenX produced at the Chemours plant for use in Teflon *and* GenX produced as a by-product of the unrelated vinyl operation? There's been a great deal of confusion here about the 'two GenXs,' and why one is regulated and the other is seemingly unregulated. Our local officials are pulling their hair out trying to figure that one out."
